There is some talk of putting in a night operator at this station: a consummation devoutly to be wished.

If the history of the racists constantly occurring in the various school districts were to be written, what an interesting book it would make!

Now that a beginning has begun, let us hope the end may end shortly in the filling up of the burnt district with substantial brick buildings.

To Judge T. P. Russell the editor and his wife return thanks for a most beautiful bouquet of roses, lilies, and other flowers too numerous to mention.
Alex. Buckley is building a Chinese pagoda on the farm east of Ironton belonging to Mrs. C. A. Pilley. It will be used as summer quarters by the ladies of the house.

MARRIED.—At Ironton, Mo., Monday, May 13, 1895, by W. G. Fairchild, Justice of the Peace, Mr. Ferdinand Ballou to Mrs. Emeline Jones—both of Pilot Knob, Mo.

Arthur Huff and family will occupy their new quarters after today. The building has been recovered and put in thorough repair, inside and out, and will make a comfortable residence.

W. R. Edgar was among the passengers who started for St. Louis this morning on the Accommodation. If he has ordinary luck he will reach his destination some time this evening.

St. Vaughn has rented the lower south room in the Academy of Music building, and by this evening will be running therein a barber shop in full blast. He has had the room tastefully fitted up.

Says the Scott County Newsboy: "The Madison County Democrat utterly fails to refute Bro. Ake's repeated charges that Fredericktown played a confidence game when she acquired the Marvin Institute."

At the Council meeting yesterday the Mayor nominated the following officers, who were duly confirmed: W. H. Fisher, Collector; T. B. Pruitt, Assessor; Jos. A. Zwart, Treasurer; and Arthur Huff, Clerk.

P. W. Whitworth and his three sons took a trip in a spring wagon to Fredericktown Saturday, returning Monday. The editor was offered a seat in the vehicle, but was reluctantly compelled to decline.

A bitter frost whitened things outside yesterday morning, the thermometer going down to the freezing point. Grapes are probably killed, but as to the other fruits and vegetation the damage is not yet ascertained.

FOR SALE.—One Spring Wagon, and One One-Horse Wagon, at half price. Buggies and Carriages repaired and painted. I, also, have over one ton of prime Timothy Hay to sell.
E. C. TUAL, Arcadia.

C. C. Yates requests us to state to the people of the Valley that he will return to Ironton on the 17th to tune Wm. Fletcher's Piano, and others, and will remain a few days and put in order any Piano needing looking after.

A little rain and a good deal of hail last Friday night, followed by much cooler weather, which still continues, knocks out our hopes of a ground-soaker. Never was there so dry an April and May, and all the crops are suffering.

A new awning to that part of the Huff building now occupied by Dr. Marshall gives added grace to the property. The Doctor is very comfortable located, and his patrons will always find him at home when not out upon call.

The Council requests bicycle riders to keep off the sidewalks. We hope the b. rs. will not treat this polite intimation as the boy in the apple tree did the kind-hearted farmer who asked him to come down from the tree of growing grass. Beside, the stones are not far off.

Prof. F. M. Vance left for Farmington yesterday morning, having concluded his term as principal of the Ironton public schools. Mr. V. began his labor here under very unfavorable conditions, in the midst of the term, and with a school thoroughly disorganized. He succeeded much better than many another teacher might have done, and goes home followed by the kindly feelings of his pupils and the respect of the patrons of the school. Wherever his lot may be cast, the REGISTER wishes him success.

The colored school, under the direction of the teacher, D. W. Kenney, gave an entertainment on Tuesday night, to a large audience. The programme was a good one, and its rendition creditable. An admission fee of ten cents was charged, for the benefit of the school library.

The railroad architect came down to Arcadia Monday and exhibited plans for a new station house in that town. The building will be commenced in a few days, and those who have seen the plans say, when completed, it will be creditable to the road and suited to the wants of the locality.

The Bonanza's late purchase is looming up in all the glory of thorough repair and variegated fresh paint. "The Silver Dollar," it will be called, despite the goldbug's frenzied shriek for "sound money." The Capt. says the "jingle of silver has sweet enough sound to satisfy his avaricious organs."

And still the night trains give Ironton the go-by; but perhaps we may some day have a legislature not dominated by freetraders. Then a bill to compel all passenger trains to stop at all county-seats through which they run, may be enacted into law. But not before—not before. So help us, Bill Phelps!

Dr. S. E. Strong has bought the lot north of Schultz's, and formerly occupied by Chas. Arnold. Louis Miller has contracted to put up a brick office building for the Doctor, and the materials are now being hauled to their location. This is the first invasion of the "burnt district." Let it be chronic in letters of gold.

Geo. L. Moore, of old Ironton boy, but now a resident of the Far West, came to see the home-people last Friday. He is in excellent health and enamored of the land of canyons and grizzlies, because of its life-giving atmosphere. Mr. M. will remain a few days and then return to work at Wallace, Idaho. He is a telegraphist.

Charley Williams of Potosi was in Ironton Saturday and Sunday, and while in the Valley he bought two fine Jersey cows from Jos. A. Reburn. He will take them home "overland." We knew Charley twenty-two years ago, and he looks nearly as young to-day as he did then, albeit he is a man of family and the father of eight children.

Miss Fannie Freeland, who has for two years had charge of the intermediate department of the Ironton public school, left for her home in Indiana last Monday. She probably would have been re-employed by the board, but she declined to make application for the place, owing to ill-health. She has many warm friends here, who wish her recovered health, and a prosperous and happy life.

The wreck of a freight train last night near Irondale clogged up the road and suspended traffic for six or eight hours. The fast mail will not pass here before twelve o'clock to-day, while the Arcadia Accommodation will take a lay-off at Bismarck and await the clearing of the way. We are not advised as to whether anyone was killed or injured in the wreck, and will have to wait for further developments.

Mrs. S. L. Ginzburg, daughter of Rev. Morton D. D., of this place, left Monday of last week to attend the Southern Baptist Convention at Washington, D. C., and thence to Annapolis, Md., to the graduating exercises of the Naval Academy from which institution her brother, J. Proctor Morton, graduates this year. From Annapolis Mrs. G. will proceed to New York, and sail thence to Campos, Brazil, her home, early in June.

We hear of frequent night depredations in a small way in a community on the Fredericktown road about seven miles south of Ironton. Corn and chicken-stealing has become entirely too frequent for the comfort of those who own such property. Spring-houses also are not exempt. In one or two instances the thieves have been tracked to their houses, and once, we understand, a compromise was effected upon the thieves paying so much down on the nail. A little law and justice might be profitably dispensed in the locality mentioned, and we advise the parties most interested to look a little out.

The new hotel at Arcadia makes a magnificent appearance. It is situated so as to command a fine view, and is itself a prominent feature of the landscape. Mr. Mangold is to be congratulated upon his enterprise. We predict that it will have plenty of custom when the traveling public get acquainted with it. Every arrangement has been made to make the wayfarer man comfortable. The verandas on three sides of the hotel afford pleasant lounging places, and from the top of the house the whole Valley is spread out like a map. The culinary department is all that could be wished, and everything promises a bright future for the new hotel.

Sunday afternoon about five o'clock Mr. and Mrs. Chas. Tetwiler and children were returning home from a drive, accompanied by Mrs. A. J. Babcock, and stopped at her residence to let her get out. The horse, anxious to go home, started up rather suddenly, drawing the left wheels of the buggy over a high stump upsetting it, throwing the whole family out on the ground.

Mrs. Tetwiler was the worst hurt, having sustained a fracture of the collar bone. Mr. Tetwiler was bruised about the legs, but not seriously. The children all escaped injury. Luckily the horse stopped still when the buggy upset, or perhaps much more harm would have been done.—*Popular Bluff Citizen, May 9th.*
The 30th day of May each year is observed as Memorial Day, and it is the request of Iron Post No. 346, G. A. R., that the day be properly observed, and that all old soldiers, and the public in general, attend the services at the Cemeteries at Pilot Knob and Ironton, and it is further requested that all persons who can, will deliver such flowers for decoration of graves as they can spare, at the G. A. R. Hall, Academy of Music, by 9 o'clock on the day; and that all the citizens will by day and night aid them in this patriotic duty. For further information refer to Jas. Hasty, Robt. Hill, H. Vesterling, Chas. Osterie, C. C. Keathly, Jos. Hasty, and Adolph Dettmar.

The Academy of Music was filled to overflowing last Friday night. The public schools of the town gave an entertainment that evening, with a programme that reached from eight o'clock until near midnight. The weather was very warm, but the audience did not tire nor slacken in enthusiasm. Of course it is not expected that the school should individually commend the actors on the youthful stage—that would usurp all the space of a whole Brevity column—but we take pleasure in giving testimony as to the merit of the whole performance. It was creditable alike to the teachers and the pupils, and we are glad to note that through it the Library Fund was made the richer by about fifty dollars.

Horses are running at large in this town every day in the week, while hogs root at their own sweet will all through the streets and alleys. As to the former, we think that the ordinance in their case made and provided is scarcely worth the paper upon which it was written. To prove that an owner has "willfully" permitted his horse to be at large is a difficult matter; but in addition to this it must also be proven that said horse has "endangered" somebody's life, before a conviction can be had under this fool law. Why not enact a new ordinance, similar in its provisions to the hog ordinance, which is a good and effective law, easily enforced? We believe the enactment of such a law would tend to the better enforcement of both ordinances; and if its provisions were to be extended to the cattle which splutter up the sidewalks, all the better.

Call a Meeting.

To the Democratic Executive Committee of Iron County: Call a meeting of the Democrats of the county to determine as to whether we want a State convention to voice our sentiments on the question of the Free coinage of Silver at the ratio of 16 to 1. Call the meeting! Its results do not concern you; but it is your duty to give your party an opportunity to express its sentiments. Do your duty! Call the meeting!

City Finances.

Ed. Register.—You did the tax-payers of Ironton a big favor by kicking up a devil of a jamboree some time ago about our city finances. The tax-payers got up on their hind feet and pawed the circumambient until they got in a "reform Administration." We wanted to know where our money went. Recently you published an official statement, and now you tax-payer is unhappy without regard to age, sex, color or previous condition of servitude. "It's the old story"—"where ignorance is bliss, 'tis folly to be wise." "What becomes of our money?" was the rallying cry from our McGregor Highlanders to the Grecian Spartans of our city Lowlands, and now they are aghast at the official answer!!

It seems from this statement as published in the REGISTER of March 21st that the total cash at the disposal of the Council last year was \$152.82. If we deduct from this the \$372.28 which came over from the preceding year, we find that the revenue collected last year amounted to \$1180.00. This is a very modest little sum, but enough, if applied to our streets, to accomplish much.

But what do we find?
Why, there was paid out as salaries to Mayor, Council, Clerk and Marshal \$400.00; or over one third of the entire revenue! To this should be added the amount paid officers for holding elections \$30.00 and the amount paid the Collector for collecting the taxes \$58.57, making altogether the sum of \$489.17 paid for salaries, or over forty per cent. of the revenue!

They paid out \$148.65, or one eighth of the entire revenue for stationery and printing; of course, the fire made most of this necessary.

But the melancholy fact bulges out that nearly one half of all the taxes are spent in salaries! But little over one half is actually expended on the streets or where the tax-payers get any good of it whatever, except those who hold office. And these office holders are nearly all Millionaires and ought to be ashamed of themselves to want or take any more!! Every time the Council meets, once a month for an hour or so of an evening, mostly to tell some jokes and spin yarns, why, the clerk has to get his \$2; his Honor the Mayor has to have his \$2, and the Marshal and each Councilman gets \$1!!

The Marshal seems to be paid the enormous salary of five thousand cents a year!! Ye Gods, just think of it!! And then he is paid for his work, and he is paid in per diems, and he is paid extra for collecting, and he gets all his fees for "taking in" the fellows, and the pigs, and shooting the mad dogs!! No wonder every Marshall has been able to build himself a castle, and retire!! But, strangest of all is, while our Mayors have all been Millionaires, they are actually paid a salary over and above all fees and per diems, of six thousand cents a year!! He gets twice as much as a Councilman every time the Council meets, and a fixed salary besides.

Now, what on earth does the Mayor do to earn a salary?

And I see by this statement that the last Mayor, the Hon. W. T. Gay, promptly drew his salary, (though he is a Millionaire and didn't need it at all,) of five hundred cents a month and put it down into his boot-leg!

Why, oh why, should these things be thus? Is it any wonder that this high tariff should clean us clean out and land us into the everlasting high-low dundereens?

Oh, Heaven forefend us poor beggars! d—ns of tax-payers!!

Seriously Mr. Editor, should not our public spirited Mayor and Councilmen, in such a small village as this, serve without salary? They spend but an hour or two every month anyway. Do the tax-payers get the worth of their money? Is it worth while to keep up this bauble of a city government, principally for the fun of paying salaries to officers instead of putting our money on the streets under county organization, as they do in Arcadia, Pilot Knob and Middlebrook? Have we any better, or as good streets as they have? Could not a Constable, the Sheriff and his deputies insure us just as good order?

THE TOWNS GRUMBLER.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance. For sale by all dealers.

GUSSES WHO.

"Ten people out of a dozen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood-disease which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

From Graniteville.

Ed. Register.—Three hundred people witnessed the inaugural game of base ball on the ground of the home team who owned the game, the Bismarck nine on Sunday afternoon last. People were in attendance from Bismarck and Ironton. Among the Irontonians were: Mr. and Mrs. W. P. Wemp, Misses Lopez and Hallar, Messrs. Schwab, Moore, Baldwin, Whitworth, Lindsay, and others. Baldwin and Whitworth participated in the game. Kerwin's home run from a ball batted over the left field fence was the principal feature of the game. Peter Hartman made several phenomenal catches in left field center. Several bad muffs and other like errors contributed to the defeat of our home team by one run, the score being 21 to 22 in favor of Bismarck's. Time, two hours and fifteen minutes. Umpire, Milton Matkins. Our home team did wonderfully well from the fact of not having had a single home's practice this season.

The recent cold wave that struck this locality, is said by some who were up early enough on Sunday morning to have seen the trail of "Jack Frost." It is not thought, though, that any damage has been done to small fruit and the more tender vegetables in this section.

The Ice-Cream Festival given on the hotel lawn on Thursday evening of last week was very well attended, and the proceeds were very beyond expectation. The affair was, however, an enjoyable one, and reflects great credit upon the ladies of the Aid Society, under whose auspices the festival was given. The proceeds were \$37, of which \$25 was given to the minister.

It is now thought that the M. E. Church entertainment is set for June 10th, and the people of Graniteville may look forward to a rare treat, as in all former events nothing has been spared to cause festivals, fairs, etc., to be other than a grand success.

Birthday parties were prevalent in town last week. Miss Bertha Schifferly entertained a bevy of young people at the residence of her parents on Monday evening, in honor of her birthday. BELLEVIEW.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all dealers.
